## **DETAILED ACTION**

### ***Specification***

The abstract of the disclosure is objected to because applicant should list all the serial numbers and filing dates of all related copending and PCT applications on the first page of the specification. Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 8, line 7, applicant should clarify the magnetic anchor having a magnetic control edge (12). In line 8, the phrase "can be" is not further limiting. In line 10, the phrase "whereupon a greatest possible" is unclear. In lines 12-13, applicant should clarify the connection between the magnetic anchor and the anchor rod. It is not clear how the anchor rod is movable if both of the anchors 3' and 3" are movable relative thereto. The structure and arrangement of the second gap is unclear.

Regarding claim 9, applicant should clarify how the first and second gaps are adjusted. It is not clear how the adjustment is relative to the magnetic flow.

Regarding claim 10, there is no antecedent basis for "the spring."

Regarding claim 11, applicant should clarify how the anchor portions are adjusted.

Regarding claim 12, applicant should clarify what is intended by "has a progressive gradient."

***Allowable Subject Matter***

Claim 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 9-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nishimoto et al. [US 5,056,556] and Saltou et al. [US 3,791,408].
